### Washington, D.C. | COVID-19 Guidelines

The DC government has announced mandatory indoor mask requirements AND proof of vaccination requirements for most indoor establishments. Find the latest information from the DC government at [coronavirus.dc.gov](https://coronavirus.dc.gov).

#### Indoor Mask Requirement

- Masks are required indoors through at least Feb. 28, 2022.
- All people, regardless of vaccination status, must wear a mask indoors in public settings.

#### Proof of Vaccination

- Starting on **Jan. 15, 2022**, proof of vaccination is required at indoor gathering locations in DC:
  - Indoor food and drink establishments (restaurants, coffee shops, food halls, nightclubs)
  - Indoor cultural and entertainment establishments (concert venues, live entertainment and sporting venues, movie theaters, bowling alleys)
  - Indoor event and meeting venues
  - The requirement applies to hotel meeting rooms, ballrooms and hotel restaurants and bars, but proof of vaccination is not required at check-in for individual hotel guests.
  - Visitors to museums generally do not have to show proof of vaccination, unless attending a private event or dining in a café. However, Smithsonian museums and private museums may have their own requirements and visitors should check with individual establishments.
  - Retail stores, grocery stores and private offices are not currently subject to the city's requirement.
